216, Denzil Kobbekaduwa Mawatha, Battaramulla.
Telephone: 0112862795, Fax: 0112872272
E-mail: gmo@ rda.gov.lk

The Scope of the Work is **Reconstruction of Bridge No. 9/1 on Pelawatta – Kankotiyawatta – Thiniyawala – Morawaka Road (B 363).**

The work consists of Construction of single span **7.10** m long bridge of 8.5 m clear carriageway with footwalk on both sides and reinforced concrete pad foundation abutment & wingwalls.

The Site is located in Kalutara District.

Clause 1.2

Time for completion is **365 Days** from the Start Date:

Clause 1.3

- a) The Bidding Documents shall be inspect from the RDA web site [www.rda.gov.lk] from 26/06/2024 to 17/07/2024.
- b) The non-refundable tender fee of **Rs. 24,115.00** with SSCL & VAT can be paid by depositing cash to the following account.
- | | |
|---------------------|-------------------------------------|
| (i) Account Name | : Director General – RDA. |
| (ii) Account Number | : 0000001943 |
| (iii) Bank Name | : Bank of Ceylon – Corporate Branch |
- c) The Bidding Documents shall be collected during working hours from *09.00 Hrs to 15.00 Hrs* via email address ddlmaint@gmail.com from 26/06/2024 until 16/07/2024.

Clause 2, Source of Funds

Clause 2.1

Funded by Government of Sri Lanka (GOSL)

Clause 3, Ethics, Fraud and Corruption

Add a new sub-Clause 3.3

Clause 3.3

A misrepresentation or omission of facts in order to influence the procurement process shall make the Bid non-responsive and if detected after the award the bidder could be subjected to legal prosecution.

Clause 4, Qualification of the Bidder

Clause 4.2

The bidder shall be currently registered with the Institute for Construction Industry Development Authority (CIDA) in C4 or above **grades in Bridge specialty**.

Clause 4.3 Bidder shall provide in:

- CIDA registration particulars
 - Registration number
 - Specialty & Grade
 - Expiry Date
- VAT registration number.
- Legal status of the bidder (sole proprietor, Partnership, Company etc.)
- Authentication for signatory (written Power of Attorney)
- Certified Audited Financial Statement for latest five years
- Evidence of adequacy of working capital for this contract (liquid assets & other)
- Experience in a work of similar nature and size in the last ten years
- Work in hand
- Qualification and experience of key site management and technical personnel proposed for the Contract
- Major items of construction equipment proposed to carry out the Contract
- Authority to seek references from the bidder's bankers;
- Total monetary Value of construction work performed for each of the last five years.
- The Method statement of the way the bidders proposed to carry out the work
- Construction Program with critical path and cash flow forecast.
- A description and value of work, which the bidder proposes to sub-contract, together with the name and address of the proposed sub-contractors.
- Performance of the bidder in previous contracts in last five years.

Clause 4.4

- Average annual volume of construction work performed during the last five years shall be at least **Rs. 125.0 million**

Annual Average Construction Turnover (AACT) is calculated as follows,

$$AACT = \frac{\sum_{n=1}^5 ACT_n}{5} \quad \text{where, } n= 1\text{st} \dots\dots\dots 5\text{th year (last five years)}$$

ACT_n - Annual Construction Turnover of nth year (from the audited financial report)

- The bidder should have, experience in construction of at least one contract of a nature and complexity equivalent to the Works over the last 10 years (to comply with this requirement, works cited should be at least 70% completed), the value of which should be at least **Rs. 58.5 million**.

Experience of subcontractors in respect of “Contract of similar size and nature” shall be accepted, only if the reference sub- contract was approved by the Employer. Also such bidder shall submit the sub –contracting agreement along with the Completion Certificate issued by the main contractor and an approval letter issued by the Employer confirming the sub-contracting arrangement. Any bids that, not complying with this requirement shall be rejected.

- Liquid Assets and / or credit facilities required

Minimum Liquid Assets available shall be **Rs. 20.8 million**

Minimum Liquid Assets Available is calculated as follows:

$$X = (A - L) - 0.1 W + C \quad \text{where;}$$

X = Minimum Liquid Assets available

A = Current Assets as given in the latest audited financial statements

L = Current Liabilities as given in the latest audited financial statements

W = Outstanding contractual commitments as supported by an affidavit as per Form given in Section 9

C = A project specific revolving line of credit given by a bank used by Form given in Section 9

Note : Available Working Capital of bidder should be positive (+).

Any Bidder who does not have the minimum liquid assets calculated on the above basis, required under Clause 4.4 shall be treated as non responsive.

Any bid which has to be supported by a project specific revolving line of credit, to meet the requirement of the Clause 4.4 but does not provide it strictly according to Form given in Section 9 shall be treated as non responsive.

The bidder shall submit an affidavit that he has declared all his other contractual commitments – specimen form attached in Section 9. But does not provide all current contract commitment shall be treated as non responsive according to the clause 3.3 of ITB. No Conditional Line of Credit will be accepted and any letter of line of credit which has deviated from the specimen format, shall be considered as non responsive.

Add new clause 4.5

Clause 4.5

- Any Bidder who has abandoned any of the previous contracts awarded to him.
- Any Bidder who has delayed contracts awarded to him beyond period of 50% of the respective contract period in last five years before date.....(28 days prior to the bid opening date) due to contractor's default.
- If any contract has been terminated due to the contractor's default within last five years before date(28 days prior to the bid opening date)

If any bidder has one or more poor performed/ performing contracts shall be considered as non – responsive.

$$\text{Contract Period} = \text{Original Contract Period} + \text{Approved EOTs}$$

C. PREPARATION OF BID

Battaramulla*

Clause 19.2 (b)

The name of the Contract is 'RECONSTRUCTION OF BRIDGE NO. 9/1 PELAWATTA – KANKOTIYAWATTA – THINIYAWALA – MORAWAKA ROAD (B 363)', UNDER Contract No: RDA/RM&M/WP/GOSL(WB)/2024/14

Clause 20.1

The deadline for submission of bids shall be 2.00 p.m. on 17/07/2024.

E: AWARD OF CONTRACT

Clause 34.1

The Standard Form of Performance Security acceptable to the Employer shall be a Bank Guarantee from a reputed Bank operating in Sri Lanka and accepted by the Treasury for issue of Guarantees. The amount of Performance Security is 5% (Five percent) of the Initial Contract Price. The Format of the Performance security shall be strictly in accordance with the specific format given in Standard Forms Section 2. Any bond or security issued by Insurance Company Limited is not acceptable

Clause 36

The Adjudicator proposed by the Employer is a member to be appointed by the Institution of Engineers, Sri Lanka (IESL)

Fees and types of reimbursable expenses to be paid to the Adjudicator shall be on a case-to-case basis and shall be shared equally by the Contractor and the Employer.

CONTRACT DATA

1.1 The Employer is the Road Development Authority established by the Act No 73 of 1981 as amended by Act No. 05 of 1988 and No. 37 of 2009.

Address: Road Development Authority, “Maganeguma Mahamedura”, 216, Denzil Kobbekaduwa Mawatha, Battaramulla.

The name of Authorized Person who acting on behalf of Employer for the purpose of the Contract shall be as per the RDA circular no. RDA/ADGP/CIR/VOL-3 dated 8th of January 2024.

Name of Employer’s Representative will be notified later.

1.1 The Engineer for the Contract will be notified later.

Engineer’s Representative: Will be notified later

1.1 The Work consists of construction of single span **7.10** m long bridge of 8.5 m clear carriageway with footwalks on both sides and reinforced concrete pad foundation abutment & wingwalls.

The scope of the work is Reconstruction of bridge no. 9/1 on Pelawatta – Kankotiyawatta – Thiniyawala – Morawaka Road (B 363)

The Start Date shall be 14 calendar days from the receipt of the Letter of Acceptance.

8.1 Schedule of other Contractors: Public Utility Agencies

9.1 Schedule of Key Personnel: (Directly involved in the project)

Minimum persons with qualifications and experience to be defined,

- | | | |
|----|-------------------------|---|
| a. | Technical | Project Manager with B.Sc Civil Eng. & 10 years working experience in bridge construction and shall have ability to lead and direct multi-disciplinary teams and experience in proper deployment and efficient management of human and other resources. |
| b. | Contract Administration | Minimum qualification shall be Diploma in Civil Engineering or Quantity Surveying in recognized institute with 3 years working experience in construction field and contract administration. |

13.1 The minimum insurance covers shall be:

- The minimum cover for insurance of the Works, Temporary Works and of Plant and Materials is 110% of the Initial Contract price.
- The minimum for insurance of other property is Rs. 1 Million per occurrence with the third party, number of occurrences unlimited.

The minimum cover for personal injury or death,

- For the Contractor’s workmen is Rs. 400,000/= per event
- Contractor’s employees other than workmen is Rs. 550,000/= per event
- For third party and employees of the Employer and other persons engaged by the Employer is Rs. 550,000/= per event

For all the above the number of occurrence shall unlimited.

The insurance cover shall be valid from the Start Date to the end of the Defects Liability Period.

- 14.1 Information from the Site investigation, if so applicable and available, is shown on the Drawings.
- 17.1 The Intended Completion Date for the whole of Works shall be **365 Days** from the Start Date.
- 21.1 The Site Possession Date shall be within **07** Calendar days from the date of Letter of Acceptance.
- 27.1 The Contractor shall submit a Programme for the Works within **28** Calendar days of the Letter of Acceptance.
Contractor shall work only during normal working days unless otherwise agreed with the Engineer or in unusual circumstances where the safety of the public or work is in jeopardy. Holidays declared by the RDA shall be treated as non-working days.
- 27.3 One Month.
- 27.4 2% of the Initial Contract Price in Rupees.
- 35.1 Add with the following,
The Defects Liability Period is 364 Days.
- 39.2 Engineer may order variations up to a total cumulative value of not exceeding the contingencies provided in the priced BOQ when an emergency situation occurs and to ensure proper implementation of construction activities in a timely manner. Any variation order which involves the increase of contract price or variation order on change of scope would need the prior approval of the Employer.
- 43.1 Replace the second sentence of Clause 43.1 “The Employer shall pay date of each certificate” with the following.
“The Employer shall pay the Contractor the amounts certified by the Engineer within 28 days of the date of each certificate.
- 47.1 Price Adjustment
The contract is subjected to price adjustment.

Indices No	NAME OF INPUT	PERCENTAGE
M4	Cement	26.1
L3	Unskilled Labour	17.5
M7	Metal	14.0
P1	Small Equipment	11.9
P2	Heavy Equipment	4.0
L2	Semi Skilled Labour	3.4
M8	Sand	3.2
P3	Fuel	3.1
M21	Formwork Timber	3.0
L1	Skilled Labour	2.1
M13	Steel Reinforcement	1.7

Non-adjustable items shall be Bill No. 01 – Preliminaries & General, Bill No.04 – Day Works, and all PS & LS items.

48.1 The retention from each payment shall be 10% percent of the certified work done.

The limit of retention shall be 5 % of the Initial Contract Price.

49.1 The liquidated damages for the whole of the Works shall be **Rs. 41,820.00** per Day.

The maximum amount of Liquidated Damages for the whole of the works shall be 10% (ten percent) of the Initial Contract Price.

51.1 Replace the Sub-clause 51.1 with the following: -

‘The Employer shall make advance payment to the Contractor in an amount equivalent to 20% of the Initial Contract Price less contingencies less Provisional Sums within 14 Days after furnishing of an unconditional guarantee in a form and by a bank acceptable to the Employer or from the Construction Guarantee Fund. The guarantee shall remain effective until the advance payment has been repaid, but the amount of the guarantee shall be progressively reduced by the amounts repaid by the Contractor. Interest will not be charged on the advance payment.

Advance Payment would be made in two equal instalments. The second Instalment would be paid only after establishing that the first instalment of the advance payment has been used exclusively for mobilization as per Cl. 51.2 and submission and approval of detailed construction programme with network analysis and resource scheduling.

Any bond or security issued by Insurance Company is not acceptable.

52.1 The Performance Security shall be 5% percent of the Initial Contract Price and shall be issued by a Bank acceptable to the Employer.

Any bond or security issued by Insurance Company Limited is not acceptable.

58.1 As-Built Drawings shall be submitted to the Engineer within one month after the issuing of Certificate of Completion.

Add the annexure of additional requirements pertaining to the as built drawings to this sub clause

60.1 The percentage to apply to the value of the work not completed, representing the Employer’s additional cost for completing the Works, is 25%

63 Clauses 63.2(b), 63.4, 63.5, 63.6 and 63.7 are not applicable.

63.3 Replace the text of Clause 63.3 with the following text: “The total sum paid to the Contractor shall include such amounts, for the work, supplies or services plus following percentage of actual cost shall be paid to the Contractor for Provisional Sum of the Bill of Quantities.”

1. For the works executed by Utility Authorities - 10%
2. For the works directly executed by the Contractor – 20%
3. For supplying and services-10%

AS BUILT DRAWINGS

Description

The work shall consist of preparation of As Built Drawings necessary for performance of the completion of the work covered by the Contract, the Contractor shall supply them by the dates stated in the Contract Data.

The Contractor shall retain, at his sole expense, a qualified engineer for appropriate on site construction inspections to ensure that all improvements as set forth required, pursuant to RDA standards and specification, and as-built shall be provided. The contractor shall certify, in writing, to the Engineer that the improvements were done in compliance with the approved plan or agreement pursuant to RDA Standards & Specifications and as-built shall be provided.

Field managed record drawings should be provided to the Engineer with indicating additions and deletions for approval before preparation of the final as-built Drawings.

The following requirements shall be applied to each as-built drawing developed for the project and a hard copy together with an electronic AutoCAD drawing file format on CD shall submit for the Engineer.

Construction Requirement

The following items shall be required for all "As-Built Drawings.

- (a) All as-built for projects are required to be on 24" x 36" or similar size of construction drawings and shall bear the name and address, of the person who preparing the drawings and the date the as-built data is added to the original via the revision block. Electronic Auto CAD drawing files, based on the GPS coordinate, are also required (if the construction drawings are prepared based on GPS coordinates). Surveyor's/Engineer's statement (with embossed or wet seal and with an original signature on each sheet) shall verify that as-built drawings reflect the true conditions in the field.
- (b) Contractor's statement (with an original signature on each sheet) shall verify that all construction specifications and product qualities have been met or exceeded.
- (c) "AS BUILT DRAWINGS" of "RECORD DRAWING" shall be clearly labelled on each sheet.
- (d) If the details of under-ground service lines (Water, Sewerage, ducts &etc) are available needs to be included to the as-built drawings on the approval of Engineer
- (e) The location and elevation of the benchmark referenced will be shown on the drawing. If the reference benchmark is within the project, then a complete description of its location will be provided to assist in future locating.
- (f) Survey data, relative to the GPS coordinate grid, on right-of-way monuments installed or encountered within the project
- (g) Note any changes to the alignment either vertically or horizontally of curb & gutter sidewalk, pavers or any other surface improvement.

Measurement & Payments

No payment shall pay for the preparation of As built drawings. If the Contractor does not supply the As Built Drawings by the dates stated in the contract data, or they do not receive the Engineer's approval, the Engineer shall withhold the release of Final payment of the Contract.

Section - 6

Specifications

**Standard Specification
Particular Specification**

FOR REFERENCE ONLY

Standard Specifications

The Standard Specifications comprise 'Standard Specifications for Construction and Maintenance of Roads and Bridges' issued under the authority of the Director General of the Road Development Authority and published by the Institute of Construction Training and Development.

The ICTAD Publication No. of this publication is SCA/5. Second Edition Published in June 2009

Bidders who are not in possession of this publication can purchase it from the ICTAD.

FOR REFERENCE ONLY

Particular Specifications

These Particular Specifications should be read in conjunction with the Standard Specifications for Construction and Maintenance of Roads and Bridges, ICTAD Publication No SCA/5, which are applicable in all cases not covered herein.

The Particular Specifications for some sections of the works are comprehensive and cover the full extent of the works in these sections. In other sections they apply in conjunction with the Standard Specifications. Finally in some sections not covered in the Particular Specifications, the Standard Specifications shall apply in full.

Where there is an ambiguity or discrepancy between the Particular Specifications and the Standard Specifications, the Particular Specifications shall prevail.

PRELIMINARIES & GENERAL

P001. Mobilization and Demobilization

The Contractor shall submit to the Engineer within 14 days from the date of Letter of Acceptance his mobilization and demobilization plan for equipment, plant and machinery required for the Project. Plan shall include the location of plant, machinery and equipment and mode of transport. Engineer shall approve the mobilization and demobilization plan and payment shall be based on schedule of mobilization.

Payment

Payment shall be made according to the schedule submitted by bidder and within the lump sum amount agreed in the Bill of Quantities.

Item No	Description	Pay Unit
P (001)	Allow for mobilization & demobilization	L.S.

P(003) Provide Office for the Engineer

The Contractor shall provide furnished buildings area of 75 sqm for the use of the Engineer according to the Contract. The buildings shall be to the satisfaction of the Engineer.

The Contractor shall submit for the Engineer's approval a general layout plan of the facilities, showing their position, the access and internal roads, fences and gates and proposed waste water/sewerage disposal system before any of this work starts.

The Contractor shall be responsible for earthworks and site grading required for the site facilities and parking areas including boundary fence, gate and watchman's hut. In addition, any access to the site facilities by means of roads from a public road shall be provided and maintained by the Contractor.

The site shall be graded and properly drained so that there are no depressions where water will collect.

All wastewater shall be disposed underground and as approved by the Engineer. The Contractor shall perform percolation tests at the location of leach field, and the size of the leach field or pit will be subject to the results of these tests and the approval of the Engineer.

The septic tanks of size approved by the Engineer shall be of reinforced concrete or glass fiber equipped with proper inlet and outlet baffles and sealed access hatch. The size shall be sufficient to operate at least three years without solids overflowing into the leach field. The leach field or pits shall penetrate through the catch layer if there is one. The space below the distribution pipes shall be backfilled with a pervious material and compacted prior to installing the distribution pipes.

The design of the leach field or pits shall take into consideration only the area of the side walls of the trench or pit below the level of the inlet pipes. The area of the bottom of the trench or pit may not be used for percolation calculations as it will be continuously saturated. The Contractor shall submit full details of the proposed system for the approval of the Engineer.

No permanent work shall be allowed to start on Site until the office for the Engineer are completed and equipped as specified and fully operational.

Upon completion of the Contract, Engineer's offices shall be become property of the Contractor. The Contractor is requested to submit with his bid, Literature & Specifications of the facilities in sufficient details to enable their quality to be assessed.

Canopies shall be provided using an approved type of Construction to shade the roofs and external walls and windows of the facilities during the day.

Covered carports shall be provided at the office areas to accommodate 2 cars/cabs in each area.

Payment

Payment shall be made at the unit price as contained in the BOQ

Item No.	Description	Pay Unit
P(003)	Provide office for the Engineer during the Construction period.	month

P(004) Maintenance of Office for the Engineer

Description

The Contractor shall maintain in good decorative and working order all the buildings and the contents thereof supplied under the Contract. The Contractor shall be responsible for supplying all power, water and telephone services and all the facilities and shall meet all costs for these services and settlement of all bills for these services.

The Contractor shall maintain all facilities for the duration of the Contract, such maintenance shall include but not be limited to:-

- keeping buildings in good repair and decorative order, and free from pests, insects etc;
- cleaning office daily;
- maintaining the grounds around buildings;
- supplying kitchen-ware and crockery and cleaning materials;
- supplying toilet and cleaning equipment and materials;
- providing power, water, telephone services, fax and e-mail facilities;
- servicing and repairing all fittings and equipment installed, eg: air-conditioners, fans, etc;

Measurement and Payment

a. Measurement

Maintenance of each facility shall be measured as the number of months during which the maintenance for each facility is satisfactorily provided. Maintenance shall not be measured during

any period occurring between the expiration of the contract period and the date the works are certified as complete.

Measurement will be made for maintenance performed after the completion of the works, during the time the facilities are required by the Engineer's staff for post-construction contract completion activities.

b. Payment

Payment for maintenance for each facility shall include all labour, materials and equipment required for satisfactory maintenance of the facilities and shall include all other costs including but not limited to supply of electricity, water and telephone facilities, cleaning, guarding, disposal of rubbish, repairing equipment and all other work required to ensure the facilities and equipment provided are in good operational order.

Pay Item	Description	Pay Unit
P (004)	Maintain Office for the Engineer	Month

P 006 Office Consumable for the Engineer

The Contractor shall provide stationary for the engineer as required and duly requisition by the engineer. Stationary includes office consumable items such as paper, paper printing material and general office requisites. Payment for the stationary shall be the actual net price of stationary provided and equipment provided. Payment for invoiced cost with 10% administrative charge shall be the full payment for stationary provided and shall be made from the provisional sum item in the bill of quantities.

Item No.	Description	Pay Unit
P (006)	Provide stationary for the Engineer's Office	PS

Section-7

Bill of Quantities

BILL OF QUANTITIES

PREAMBLE

1. The Bill of Quantities shall be read in conjunction with all other bidding documents.
2. General directions and descriptions of work or materials given elsewhere in the bidding Documents are not necessarily repeated in the Bills of Quantities. For the full meaning of each Item, reference should be made to the applicable passages in the bidding Documents.
3. The prices and rates entered by the Contractor in the Bill of Quantities shall be deemed to cover the complete and finished works in the final position as required by the bidding Documents, including, inter alia, all costs and expenses which may be required in and for the construction and maintenance of the works, together with all risks, liabilities, contingencies, insurance, sampling, testing, providing all necessary assistance to the Engineer and in general all obligations imposed or implied by the contract.
4. Without affecting the generality of the foregoing provisions the prices and rates entered by the contractor in the Bills of Quantities shall also include, inter alia, all costs and expenses involved with or arising from the following:
 - i The provision, storage, transport, handling, use, distribution and maintenance of all materials, plant, equipment, machinery and tools, including all costs, charges, dues demurrage or other outlays involved in carriage and importation.
 - ii The provision and maintenance of all staff and labour and their payment, accommodation, transport, fares and other requirements.
 - iii Setting out, including the location, construction and preservation of survey markers, measurement and supervision.
 - iv The provision, storage, transport, use, handling, distribution and maintenance of all consumable stores fuel, water and electricity including the requirements of the Engineer's Representative and his staff.
 - v The location, test proving, opening, operation, reinstatement of all quarries and borrow pits, as well as compensation and mining royalties costs associated with quarries and borrow pits or any other land the contractor may require additional to that provided free for the execution of the permanent works.
 - vi Sampling, the transport of samples, testing, the carrying out of trial sections of earthworks or payment and the checking of all information given by the Engineer.
 - vii Injury caused to the Works under Construction, Plant, Materials and consumable stores by weather.
 - viii Repairs to the Works either prior to or during the Period of maintenance.
 - ix Maintenance work as detailed in the Specifications and the Conditions of Contract and the maintenance of public amenities.

- x Co-ordination with other Contractors or Authorities carrying out work either in connection with or adjacent to the Works.
- xi The supply of manufacturers test certificates.
- xii The protection of mains and services, and cost of repairs in case of damage caused by the Contractor.
- xiii Pumping and dewatering; the protection of excavation faces.
- xiv The provision and maintenance of temporary diversions in order that through traffic flow shall remain unobstructed through the contract period and in general the provision of all temporary works required in connection with the works.
- xv Insurance, custom duties, taxes(excluding VAT) levies, first aid, welfare and safety requirements and all other overheads and costs and profit.

5. A price or rate shall be entered against each Item in the Bills of Quantities whether quantities are stated or not. Item against which no price or rate is entered shall be deemed to be covered by the other prices or rates entered by the Contractor in the Bill of Quantities. The unit price or rate entered against any Item shall take Precedence over any miscalculation in the total sum against that Item. Where separate items have not been provided in the Bill of Quantities for work shall be deemed to have been included in the other prices and rates.

6. The Quantities given in the Bill of Quantities are estimated only and are given to provide a basis for the tender. No guarantee is given for their accuracy and payments to Contractor will be based on the prices and rates quoted in the bills applied to measured quantities for work done.

The quantity for each Item of work executed by the Contractor in accordance with the Contract shall be measured net and no allowance will be made for waste, bulking, shrinkage decrease of volume due to compaction or the provision of working space.

7. The items in the Bills of Quantities are the general application to the whole of the works at any location on site or any part of the works as indicated in the bid documents or instructed by the Engineer's representative.

8. Tenders, which group several items together in the Bill of Quantities under one price, will not be accepted.

9. The Units of measurement described in the Bill of Quantities are Metric Units. Abbreviations in the Bill of Quantities are as follows: -

hrs	-	Hours
km	-	Kilometre
m	-	Linear Metre
m ² or sqm	-	Square Metre
m ³ or cum	-	Cubic Metre
nos.	-	Numbers
L.S	-	Lump Sum
P.S	-	Provisional Sum
nth.	-	Month
ltr.	-	Litre
kg.	-	Kilogramme
mt	-	Metric Tonne
mm.	-	Millimetre
wk.	-	Week

DAY WORKS

1. The rates entered in the Schedule for Bill of Quantities shall form day works items for pricing extra work ordered to be done in accordance with the Contract.
2. The rates shall include all overheads and profit and all other costs of whatever nature necessary for and incidental to the performance of extra work whenever ordered and these rates required anywhere on the Site for the operation of plant the provision of labour or the provision of materials and shall be deemed to include inter alia:

Plant Operation, maintenance, repairs, fuel, oils grease, hydraulic fluids, taxes, duties operator's wages and overtime, travelling time, transport supervision, administration costs related to the use of such plant.

Labour Wages, overtime, bonuses, travelling time, hand tools, accommodation, fringe benefits, transport and supervision.

Materials Provision, transport, handling, wastage and storage

In the case of Plant and labour, only time spent working shall be paid for.

For Day works required outside the Site (which for these purposes shall mean all areas shown on the plans for permanent works and all areas of temporary works such as Contractor's and Engineer's camps, quarry, borrow pits and their access roads, diversion roads etc.), the following should be chargeable :

Plant: Self travelling: Actual travel time of and to place of stationing on the day of the work.

Transport: Travelling time of the places of transport (lorry, low loader etc.)

Labour: Travel time for the means of transport used.

Materials: Travelling time for the means of transport used.

The rates shall apply only to such work, as the Engineer shall instruct in writing to be carried out as day works. All items should be priced.

C.6	1003(1)	Pre-tensioned precast concrete beams of cast length 7.10 m supplied as per drawing No. T/B/030.	16.00	Nos.
C.7	1003(3)	Pre-tensioned precast concrete edge beams of cast length 7.10 m supplied as per drawing No. T/B/030.	2.00	Nos.
C.8	1003(2)	Pre-tensioned precast concrete beams launched into position as per drawing.	18.00	Nos.

Railings

C.9	1018(1)	Precast reinforced concrete railing & uprights in Class A Grade 25(20) concrete inclusive of light reinforcement & mould as per drawing No. T/B/102 A & B.	19.60	L.m.
C.10	1019(1)	End pilasters Type A in Class A concrete of Grade 25(20) with foundation type II as per drawing No. T/B/513.	4.00	Nos.

Concrete Kerbs

C.11	807(1)	Precast kerb in Class B Grade 25(20) concrete with light reinforcement & mould as per drawing No. T/B/512.	36.00	L.m.
C.12	807(4)	Lower kerbs in Class B Grade 20(14) concrete cast insitu as per drawing.	36.00	L.m.

Expansion joints

C.13	1009(1)	Supplying and fixing of mild steel angle iron & hard rubber expansion joint as per drawing No. T/B/107 - Rev.1.	23.20	L.m.
------	---------	---	-------	------

Bridge Bearings

C.14	1010(2)	75x12mm. hard rubber bearing pads supplied & laid over capping beam as per drawing.	42.00	L.m.
------	---------	---	-------	------

Miscellaneous

C.15	1012(1)	20mm Dia. 200mm long stainless steel dowels supplied fixed and grouted at fixed ends as per drawing.	14.00	Nos.
------	---------	--	-------	------

C.16	1011(1)	25mm Dia. 200mm long hot rolled mild steel dowels supplied fixed and grouted for the approach slab as per drawing.	36.00	Nos.
------	---------	--	-------	------

C.17	1013(1)	Bituminous sealing felt under beams at ends to prevent grout leak on to capping beam as per drawing.	24.00	L.m.
------	---------	--	-------	------

C.18	1014(1)	Bituminous sealing felt under approach slabs at capping beam ends to prevent bitumen running on capping beam as per drawing.	16.40	L.m.
------	---------	--	-------	------

C.19	1016(1)	Service duct of size 350mmx210mm. formed in deck as per drawing.	14.20	L.m.
------	---------	--	-------	------

C.20	1017(1)	500x450x75mm. thick cover slabs for service ducts in Class B Grade 25(20) concrete inclusive of light reinforcement and smooth shuttering provided as per drawing.	34.00	Nos.
------	---------	--	-------	------

C.21	806(4)	450x450x50mm. thick paving slabs in Class B Grade 25(20) concrete inclusive of light reinforcement and smooth shuttering provided as per drawing.	9.00	m ²
------	--------	---	------	----------------

C.22	1020(1a)	110mm. dia. P.V.C. rain water outlets supplied and fixed through deck as per drawing.	3.00	Nos.
------	----------	---	------	------

C.23	1020(1c)	50mm. dia. P.V.C. drain pipes supplied and fixed through deck as per drawing.	6.00	Nos.
------	----------	---	------	------

C.24	812(1)	12 m high steel lamp post with single arm bracket, supplied & fixed as per drawing. (Drg. No. T/0041/B) This includes installation of electric cables, fixing of lamps and other necessary appliances.	2	Nos.
------	--------	---	---	------

C.25	1403(7)	Supply & application of two coats of weather seal enamel paint on sides of bridge deck, end pilasters, uprights & railing etc. as specified by the Engineer.	75	m ²
------	---------	--	----	----------------

Tack Coat

C.26	502(2a)	Medium curing cut back bitumen (10-20%) or emulsified bitumen Grade CSS-1 or CSS-1h tack coat applied at the rate of 0.5 litres/m ² to concrete deck and approach slab surface.	100.00	m ²
------	---------	--	--------	----------------

Asphaltic Concrete Surfacing

C.27	506(1a)	Asphaltic Concrete Surfacing compacted to a thickness of 50mm over the concrete deck & approach slab.	100.00	m ²
------	---------	---	--------	----------------

D. MISCELLANEOUS STRUCTURES

D.1	Construction of 2 Nos. reinforced concrete staircase to access underneath of the bridge.	Item	P.S.	600,000.00
